

Supply Studer Vista 1 Digital Mixing Consult for VTV

Danmon Asia announced the completed delivery of audio equipment including Studer Vista 1 mixer, Sennheiser microphones and Genelec speakers for the S5 studio project for Vietnam Television Station – VTV through our partner Phuc Thanh JSC end of 2014.

The delivery was included in Vista 1 Compact 32 Fader, Sennheiser microphone 06 pcs E 912-S BK, 2 pcs MKH 60-1, 08 pcs MKE 2-P-C, 8 sets Ew 512 G3-C, 2 sets ASA 1, 02 sets NT 1-1-EU, 02 sets A 2003-UHF, 02 sets GZG 1029, 2 sets GZP 10, 20 sets MZQ02 together with 04 pcs Genelec 8030BPM with wall-mount brackets and floor stands.

The audio package was part of the green-field investment for HD video and audio equipment to better production of contents for current news and content for VTV4 channel.

Mr. Nguyễn Đình Đức – Head of the Department commented: “The audio equipment is being well operated and it really helps to improve our daily production. The vista 1 mixer is being optimized since all the 32-faders are used for the channels. Genelec speakers and Sennheiser mics, especially wireless microphones are used everyday”

The installation was carried out within 02 days together with testing and training, according to Mr. Pham Hoang Thanh Son – Danmon Asia’s Engineer.
